E. H. POLLARD, Esq. Branches at the most important places in Chion, has been in contemplation for a very long period. The local and foreign trade in Hongkong and at the open ports in China and Japan has increased so rapid. | Subscribed Capital, 2500,000 of which 2300,000 in facilities are felt to be required. The Banks now in China being only branches of Corporations whose head quarters are in England or India, and which were formed chief with the view of carrying on exchange operation between those countries and China, are scarcely in a position to deal satisfactorily, with the local trade which has become so much more extensive and varied than in former, years: This deficiency the Hongkong and Bhangle Banking Company will supply, and will in fact assume the same position with relation to this

Colony as the Presidency Banks in India, or the, Banks of Australia in their respective localities.

The Establishment of a Mint in Hongkong providing an adequate supply of proper currency, will render a local Banking medium assential to carry out its operations, and the almost certain disappearance of the existing Comprederic system so far as money is concerned) will also ensur Banks becoming in course of time the exclusive medium for the transaction of the monetary ope

rations connected with trade. For the anticipated success of this enterprise there are therefore simple grounds; and the great prosperity which has attended the working of other local associations in China clearly shows that the largest profits are obtained by those Public Companies which possess an Interested local body of Proprietors or Shareholders whose support naturally forms a chief element of round The Bank will commence operations kimultaneously in Honekong and Shanghai and as the im portance of its business at the latter place must be very great, it is intended to petablish a local Board of Directors there for more effectually meet ing the work. As circumstances render it ad visable the Bank will establish Branches at other In the distribution of Shares Hongkong an

Shanghai will equally participate. Shares will also be reserved for the other ports in China and Japan and for persons residing elsewhere, who are directly interested in the China Trade Applications for Shares must be addressed until further notice, to the Provisional Committee, care settle all claims, on policies issued, by the first MESSES. WE should be pleased to see some enquir instituted as to the nature and extent of French interests at Ninguo. It would found that they consisted driginally of convoy privileges or more strictly speaking of piratical rights. We are pretty sure that the Breach have not a vestigo nor a shadow of legit mate commerce at Niugno, and yet the insist on nominating a military omcer Commissioner of Oustons. They claim right of compelling the Mandarine to emplo their military and navat officers in the Franco Chinese contingent and they also force

IF the Conference has taken a step since the departure of the lost bleamor, it is a ster backwards: discord reigns around the green table and has arisen apropos of unimportant details. It seemed to every one that as soon as Denmark consented to the division of the Sleawig territory nothing was more casy than to arrive at a solution. This was a complete error Germany became more ghittonous and in the Conference of the 6th of June would not yield more condescendent or rather, weaker. Denmark abandoned her first protentions to adopt the line proposed by En gland-the discussion was bitter and de generated into a quarrel, and such was the sourness of the pleninotentiaries that they separated without even deciding on the pro
